

## zh-CN

预设五种状态颜色，可以通过设置 `color` 为 `success`、`processing`、`error`、`default`、`warning` 来代表不同的状态。

## en-US

We preset five different colors, you can set color property such as `success`, `processing`, `error`, `default` and `warning` to indicate specific status.

```
import { Tag, Divider } from 'antd';
import {
  CheckCircleOutlined,
  SyncOutlined,
  CloseCircleOutlined,
  ExclamationCircleOutlined,
  ClockCircleOutlined,
  MinusCircleOutlined,
} from '@ant-design/icons';

export default () => (
  <>
    <Divider orientation="left">Without icon</Divider>
    <div>
      <Tag color="success">success</Tag>
      <Tag color="processing">processing</Tag>
      <Tag color="error">error</Tag>
      <Tag color="warning">warning</Tag>
      <Tag color="default">default</Tag>
    </div>
    <Divider orientation="left">With icon</Divider>
    <div>
      <Tag icon={<CheckCircleOutlined />} color="success">
        success
      </Tag>
      <Tag icon={<SyncOutlined spin />} color="processing">
        processing
      </Tag>
      <Tag icon={<CloseCircleOutlined />} color="error">
        error
      </Tag>
      <Tag icon={<ExclamationCircleOutlined />} color="warning">
        warning
      </Tag>
      <Tag icon={<ClockCircleOutlined />} color="default">
        waiting
      </Tag>
      <Tag icon={<MinusCircleOutlined />} color="default">
        stop
      </Tag>
    </div>
  </>
);
```
