

zh-CN

设置了 `arrowPointAtCenter` 后，箭头将指向目标元素的中心。

en-US

By specifying `arrowPointAtCenter` prop, the arrow will point to the center of the target element.

```
import { Tooltip, Button } from 'antd';

export default () => (
  <>
    <Tooltip placement="topLeft" title="Prompt Text">
      <Button>Align edge / 边缘对齐</Button>
    </Tooltip>
    <Tooltip placement="topLeft" title="Prompt Text" arrowPointAtCenter>
      <Button>Arrow points to center / 箭头指向中心</Button>
    </Tooltip>
  </>
);
```
