

## Ionic plugin

This plugin adds completion for the Ionic CLI, as well as some aliases for common Ionic commands.

To use it, add `ionic` to the `plugins` array in your `zshrc` file:

```
plugins=(... ionic)
```

### Aliases

Alias	Command	Description
iv	<code>ionic --version</code>	Check Ionic version
ih	<code>ionic --help</code>	Ionic help command
ist	<code>ionic start</code>	Create a new project
