

Home > puppeteer > Target > type

Target.type() method

Identifies what kind of target this is.

Signature:

```
type(): 'page' | 'background_page' | 'service_worker' | 'shared_worker' | 'other' | 'browser'
```

Returns:

```
'page' | 'background_page' | 'service_worker' | 'shared_worker' | 'other' |  
'browser' | 'webview'
```

Remarks

See docs for more info about background pages.
