

Formspree & Next.js example

An example of using [Formspree](#) with [Next.js](#). For more information on how to use Formspree check out [our official integration guide](#).

Get the code

- [Check out the demo site here](#)
- Fork this example to your own Github repo. [[Fork it →](#)]

Or just deploy directly to Vercel!

Installation

Clone down repo, navigate to the repo directory and...

```
# Install dependencies
npm install

# Run next locally at localhost:3000
npm run dev
```
