

## **Installing font**

- OS Install instructions

## **Enabling ligatures**

You need to explicitly enable ligatures support in following editors:

- Atom
- BBEdit
- Brackets
- ChromeOS Terminal
- Cloud9
- Emacs
- JetBrains' products (IntelliJ, etc)
- LaTeX
- LightTable
- MacVim
- MATLAB Install instructions
- Notepad++
- Sublime Text
- VS Code
- Windows Terminal & Windows Terminal Preview

For other editors it should be enough to simply select Fira Code as your font of choice. Full list of compatible editors
