

zh-CN

在抽屉中使用表单。

en-US

Use a form in Drawer with a submit button.

```
import { Drawer, Form, Button, Col, Row, Input, Select, DatePicker, Space } from
'antd';
import { PlusOutlined } from '@ant-design/icons';

const { Option } = Select;

class DrawerForm extends React.Component {
  state = { visible: false };

  showDrawer = () => {
    this.setState({
      visible: true,
    });
  };

  onClose = () => {
    this.setState({
      visible: false,
    });
  };

  render() {
    return (
      <>
        <Button type="primary" onClick={this.showDrawer} icon={<PlusOutlined />>
          New account
        </Button>
        <Drawer
          title="Create a new account"
          width={720}
          onClose={this.onClose}
          visible={this.state.visible}
          bodyStyle={{ paddingBottom: 80 }}
          extra={
            <Space>
              <Button onClick={this.onClose}>Cancel</Button>
              <Button onClick={this.onClose} type="primary">
                Submit
              </Button>
            </Space>
          }
        </Drawer>
      </>
    );
  }
}
```

```
<Row gutter={16}>
  <Col span={12}>
