

Frontend Legacy Data Types

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\[linux-master] [Documentation] [userspace-api] [media] [dvb] frontend_legacy_api.rst, line 9)

Unknown directive type "toctree".

```
.. toctree::
    :maxdepth: 1

    fe-type-t
    fe-bandwidth-t
    dvb-frontend-parameters
    dvb-frontend-event
```

Frontend Legacy Function Calls

Those functions are defined at DVB version 3. The support is kept in the kernel due to compatibility issues only. Their usage is strongly not recommended

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\[linux-master] [Documentation] [userspace-api] [media] [dvb] frontend_legacy_api.rst, line 28)

Unknown directive type "toctree".

```
.. toctree::
    :maxdepth: 1

    fe-read-ber
    fe-read-snr
    fe-read-signal-strength
    fe-read-uncorrected-blocks
    fe-set-frontend
    fe-get-frontend
    fe-get-event
    fe-dishnetwork-send-legacy-cmd
```
