

## node plugin

This plugin adds `node-docs` function that opens specific section in Node.js documentation (depending on the installed version).

To use it, add `node` to the plugins array of your `zshrc` file:

```
plugins=(... node)
```

## Usage

```
# Opens https://nodejs.org/docs/latest-v10.x/api/fs.html
$ node-docs fs
# Opens https://nodejs.org/docs/latest-v10.x/api/path.html
$ node-docs path
```
