

Atlassian Atlassian example

This example shows how to use Next.js along with Atlassian of React. This is intended to show the integration of this UI toolkit with the Framework.

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npm install
npm run dev
# or
yarn
yarn dev
```
