  <>
    <Paragraph>
      Ant Design interprets the color system into two levels: a system-level color
system and a
      product-level color system.
    </Paragraph>
    <Paragraph>
      Ant Design's design team preferred to design with the HSB color model,
which makes it
      easier for designers to have a clear psychological expectation of color when
adjusting colors,
      as well as facilitate communication in teams.
