

G-API Overview

This is the latest overview slide deck on G-API.

Prerequisites

- [Emacs](#) v24 or higher;
- [Org](#)-mode 8.2.10;
- `pdflatex` ;
- `texlive-latex-recommended` ([Beamer](#) package);
- `texlive-font-utils` (`epstopdf`);
- `wget` (for `get_sty.sh`).

Building

1. Download and build the [Metropolis](#) theme with the script:

```
$ ./get_sty.sh
```

2. Now open `gapi_overview.org` with Emacs and press `C-c C-e l P` .
