

zh-CN

适合放在较狭窄的区域内。

en-US

Appropriate for a narrow area.

```
import { Progress } from 'antd';

export default () => (
  <div style={{ width: 170 }}>
    <Progress percent={30} size="small" />
    <Progress percent={50} size="small" status="active" />
    <Progress percent={70} size="small" status="exception" />
    <Progress percent={100} size="small" />
  </div>
);
```
