

zh-CN

通过 `destroyTooltipOnHide` 控制提示关闭时是否销毁 dom 节点。

en-US

Setting `destroyTooltipOnHide` to control whether destroy dom node of tooltip when hidden.

```
import { Tooltip } from 'antd';

export default () => (
  <Tooltip destroyTooltipOnHide={{ keepParent: false }} title="prompt text">
    <span>Tooltip will destroy when hidden.</span>
  </Tooltip>
);
```
