

zh-CN

展示动态变化的效果。

en-US

The count will be animated as it changes.

```
import { Badge, Button, Switch, Divider, Avatar } from 'antd';
import { MinusOutlined, PlusOutlined, QuestionOutlined } from '@ant-design/icons';

const ButtonGroup = Button.Group;

class Demo extends React.Component {
  state = {
    count: 5,
    show: true,
  };

  increase = () => {
    const count = this.state.count + 1;
    this.setState({ count });
  };

  decline = () => {
    let count = this.state.count - 1;
    if (count < 0) {
      count = 0;
    }
    this.setState({ count });
  };
