

In the terminal:

1. Use the keyboard shortcut `CTRL + SHIFT + J` to open the JavaScript Console.
2. Copy & paste the following 3 commands:

```
term_.prefs_.set('font-family', '"Fira Code", Cousine, "Roboto Mono", "Source Code Pro", monospace');  
term_.prefs_.set('user-css-text', "x-row { font-feature-settings: 'liga', 'calt', 'ss01', 'ss02', 'ss03', 'ss04', 'ss05', 'ss06', 'ss07'; text-rendering: optimizeLegibility; })"  
term_.prefs_.set('user-css',  
'https://cdn.jsdelivrivr.net/npm/firacode@latest/distr/fira_code.min.css')
```

Note: The values for font-feature-settings can be tuned to your preference. For more details see the documentation at [stylistic sets](#)
