

## integration\_test\_example

Demonstrates how to use the `package:integration_test`.

To run `integration_test/example_test.dart`,

### Android / iOS

```
flutter drive \
  --driver=test_driver/integration_test.dart \
  --target=integration_test/example_test.dart
```

### Web

In one shell, run Chromedriver (download [here](#)):

```
chromedriver --port 8444
```

Then, in another shell, run `flutter drive`:

```
flutter drive \
  --driver=test_driver/integration_test.dart \
  --target=integration_test/example_test.dart \
  -d web-server
```
