

The speed and performance of sites built with Gatsby make it a great tool for building e-commerce sites. There are existing plugins for connecting services like [Shopify](#) and [Snipcart](#) to Gatsby, and this section contains reference guides to help get things setup.

To see examples of e-commerce sites built with Gatsby, check out the [showcase](#).

You can also check out the ["Making an E-commerce Site with Stripe" tutorial](#) for more information.
