

zh-CN

一组互斥的 Radio 配合使用。

en-US

A group of radio components.

```
import { Radio } from 'antd';

const App = () => {
  const [value, setValue] = React.useState(1);

  const onChange = e => {
    console.log('radio checked', e.target.value);
    setValue(e.target.value);
  };

  return (
    <Radio.Group onChange={onChange} value={value}>
      <Radio value={1}>A</Radio>
      <Radio value={2}>B</Radio>
      <Radio value={3}>C</Radio>
      <Radio value={4}>D</Radio>
    </Radio.Group>
  );
};

export default () => <App />;
```
