

react-jss example

This example shows how to integrate react-jss and jss in Next.js

The critical styles will be injected into the head when server rendered.

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-react-jss with-react-jss-app
# or
yarn create next-app --example with-react-jss with-react-jss-app
# or
pnpm create next-app -- --example with-react-jss with-react-jss-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
