

# Building Web Forms with Next.js Example

This example shows how you can build forms with Next.js.

## Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

## How to use

Execute [create-next-app](#) with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example next-forms next-forms-app
# or
yarn create next-app --example next-forms next-forms-app
# or
pnpm create next-app -- --example next-forms next-forms-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
