Puppeteer.networkConditions property

Signature:

```
get networkConditions(): PredefinedNetworkConditions;
```

Remarks

Returns a list of network conditions to be used with `page.emulateNetworkConditions(networkConditions)`. Actual list of predefined conditions can be found in `src/common/NetworkConditions.ts`.

Example

```
const puppeteer = require('puppeteer');
const slow3G = puppeteer.networkConditions['Slow 3G'];

(async () => {
  const browser = await puppeteer.launch();
  const page = await browser.newPage();
  await page.emulateNetworkConditions(slow3G);
  await page.goto('https://www.google.com');
  // other actions...
  await browser.close();
})();
```
