

Python HOWTOs

Python HOWTOs are documents that cover a single, specific topic, and attempt to cover it fairly completely. Modelled on the Linux Documentation Project's HOWTO collection, this collection is an effort to foster documentation that's more detailed than the Python Library Reference.

Currently, the HOWTOs are:

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\cpython-main\Doc\howto\[cpython-main] [Doc] [howto] index.rst, line 13)

Unknown directive type "toctree".

```
.. toctree::
   :maxdepth: 1

   pyporting.rst
   cporting.rst
   curses.rst
   descriptor.rst
   enum.rst
   functional.rst
   logging.rst
   logging-cookbook.rst
   regex.rst
   sockets.rst
   sorting.rst
   unicode.rst
   urllib2.rst
   argparse.rst
   ipaddress.rst
   clinic.rst
   instrumentation.rst
   annotations.rst
```
