

PyTorch CI Metrics/Dashboards Compilation

This page is a compilation of dashboards we have for tracking PyTorch CI, including test time, test status, and when the docs were last updated.

OSS:

- Grafana: <https://metrics.pytorch.org/?orgId=1>
- The HUD
 - <https://hud.pytorch.org/build2/pytorch-master> cleaner
 - <https://hud.pytorch.org/build1/pytorch-master> has more data, like estimated cost per commit
- PyTorch download stats

Internal Dashboards

- Some of the following should be combined into one folder structure.
- Michael's trunk health Unidash
- Rong's [potentially outdated] Collation of Unidash, containing
 - Binary build TTS
 - Test TTS
 - Test Status
- PyTorch Dev Infra Perf collation (a few of these are broken)
 - OSS CI Test Time Details
 - OSS CI Build Time Details
 - Landhugger
 - Internal Statuses
- Ed's [potentially outdated] PyTorch OSS Unidash
 - Has stats based on branch: master, nightly, postnightly, pull request
- viable/strict promo logs
- Links to nightly cron jobs per domain
 - nightlies trigger
 - torchaudio
 - torchvision
 - torchtext
- TorchBench stats
- Internal stats from other teams
 - Fortify Reliability (<https://fburl.com/unidash/kicivh9f>) (from internal DevX)
 - Remote worker status (<https://fburl.com/unidash/iu7kdxza>) (from internal DevX, mostly for GPU and mobile RE)
