

zh-CN

进行全局 loading，异步自行移除。

en-US

Display a global loading indicator, which is dismissed by itself asynchronously.

```
import { message, Button } from 'antd';

const success = () => {
  const hide = message.loading('Action in progress..', 0);
  // Dismiss manually and asynchronously
  setTimeout(hide, 2500);
};

export default () => <Button onClick={success}>Display a loading indicator</Button>;
```
