

zh-CN

位置有十二个方向。如需箭头指向目标元素中心，可以设置 `arrowPointAtCenter`。

en-US

There are 12 `placement` options available. Use `arrowPointAtCenter` if you want the arrow to point at the center of target.

```
import { Popconfirm, message, Button } from 'antd';

const text = 'Are you sure to delete this task?';

function confirm() {
  message.info('Clicked on Yes.');
```

```
}

export default () => (
