

## **zsh-ipfs**

zsh completion plugin for The InterPlanetary File System (IPFS)

Please submit issues and pull requests to the main zsh-ipfs repo.

### **About**

IPFS (InterPlanetary File System) is a peer-to-peer hypermedia protocol designed to make the web faster, safer, and more open.

### **License**

See: <https://github.com/hellounicorn/zsh-ipfs/blob/master/LICENSE>
