

Cursor

- [issue #11150](#): Changing multiple occurrences when they are adjacent loses one of the occurrences
- move actions that don't need a view model out of the editor core:
 - ☐ deleteAllRight (@alex)

Indenting/Outdenting

- [issue #9409](#): Outdent issue with Typescript
- [issue #15598](#): Multi-line indents do not preserve partial indents
- [issue ##2272](#): Automatically indent "end" for ruby code

Find widget

- [issue #15579](#): Regex search issue
 - seed search string only if the selection is created explicitly (i.e. not due to a find match)
- Widget size/position
 - ☒ Make it resizable: [#2657](#), [#2220](#)
 - ☒ Bug, Replace Box in Current File Truncated [#5861](#)
 - ☒ Cover search result: [#5525](#)
- Multiline search
 - ☐ [#15727](#), [#9051](#), [#10588](#)
- Find in selection
 - ☒ Closing the find widget via x does not clear find in selection toggle [#15959](#)
 - ☒ Find selected or Find in selection [#8843](#) [#24887](#)
 - ☒ Toggle Find in selection option automatically when there is selection in editor, [#15148](#), [#17560](#)
- Persist search settings
 - ☒ [#6158](#)
- Feature requests
 - ☐ [Introduce an universal newline character like \R](#)
 - ☐ [Support Multicursor](#)
 - ☐ [Find all](#)
 - ☐ [Replace with new line](#)
 - ☐ [Ignore comments in search](#)

DVORAK on mac

- multiple keybindings issues, involves Chromium implementing a very poor w3c recommendation

multicursor

- [issue #16486](#): Deselect one of multi-cursors
