

babel-preset-meteor

Babel preset for all Meteor plugins.

Install

```
$ npm install --save-dev babel-preset-meteor
```

Updating dependency versions

```
$ cd path/to/babel-preset-meteor  
$ npm run update-versions
```

Usage

Via .babelrc (Recommended)

.babelrc

```
{  
  "presets": ["meteor"]  
}
```

Via CLI

```
$ babel script.js --presets meteor
```

Via Node API

```
require("babel-core").transform("code", {  
  presets: ["meteor"]  
});
```
