

# gatsby-source-faker

This is a plugin that allows you to use [faker.js](#) to generate fake data for Gatsby sites. This could come in handy for creating example sites, documentation, or just to experiment with Gatsby.

## How to use it

Install `gatsby-source-faker`

```
npm install gatsby-source-faker
```

Add `gatsby-source-faker` to the `gatsby-config.js` as follows

```
plugins: [  
  {  
    resolve: `gatsby-source-faker`,  
    // derive schema from faker's options  
    options: {  
      schema: {  
        name: ["firstName", "lastName"],  
      },  
      count: 3, // how many fake objects you need  
      type: "NameData", // Name of the graphql query node  
    },  
  },  
]
```
