

zh-CN

点击 TimePicker, 然后可以在浮层中选择或者输入某一时间。

en-US

Click `TimePicker`, and then we could select or input a time in panel.

```
import { TimePicker } from 'antd';
import moment from 'moment';

function onChange(time, timeString) {
  console.log(time, timeString);
}

export default () => (
  <TimePicker onChange={onChange} defaultOpenValue={moment('00:00:00', 'HH:mm:ss')} />
);
```
