

MySQL-Macports plugin

This plugin adds aliases for some of the commonly used MySQL commands when installed using MacPorts on macOS.

To use it, add `mysql-macports` to the `plugins` array in your `zshrc` file:

```
plugins=(... mysql-macports)
```

For instructions on how to install MySQL using MacPorts, read the MacPorts wiki.

Aliases

Alias	Command	Description
mysqlstart	<code>sudo /path/to/mysql.server start</code>	Start the MySQL server.
mysqlstop	<code>sudo /path/to/mysql.server stop</code>	Stop the MySQL server.
mysqlrestart	<code>sudo /path/to/mysql.server restart</code>	Restart the MySQL server.
mysqlstatus	<code>mysqladmin5 -u root -p ping</code>	Check whether the MySQL server is running.
