

# Ant Design example

This example shows how to use Next.js along with [Ant Design of React](#). This is intended to show the integration of this UI toolkit with the Framework.

## Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

## How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-ant-design with-ant-design-app
# or
yarn create next-app --example with-ant-design with-ant-design-app
# or
pnpm create next-app -- --example with-ant-design with-ant-design-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
