

Using Markdown Pages

Demonstrates how to render Markdown files as pages in your Gatsby application.

Running an example site

1. Clone the `gatsby` repository `git clone git@github.com:gatsbyjs/gatsby.git`
2. Navigate to the example `cd gatsby/examples/using-markdown-pages`
3. Install the dependencies for the application by running `yarn`
4. Run the Gatsby development server `gatsby develop`
