

zsh-interactive-cd

This plugin adds a fish-like interactive tab completion for the `cd` command.

To use it, add `zsh-interactive-cd` to the plugins array of your zshrc file:

```
plugins=(... zsh-interactive-cd)
```

Usage

Press tab for completion as usual, it'll launch fzf automatically. Check fzf's [readme](#) for more search syntax usage.

Requirements

This plugin requires [fzf](#). Install it by following its [installation instructions](#).
