

zh-CN

基本滑动条。当 `range` 为 `true` 时，渲染为双滑块。当 `disabled` 为 `true` 时，滑块处于不可用状态。

en-US

Basic slider. When `range` is `true`, display as dual thumb mode. When `disable` is `true`, the slider will not be interactable.

```
import { Slider, Switch } from 'antd';

class Demo extends React.Component {
  state = {
    disabled: false,
  };

  handleDisabledChange = disabled => {
    this.setState({ disabled });
  };

  render() {
    const { disabled } = this.state;
    return (
      <>
        <Slider defaultValue={30} disabled={disabled} />
        <Slider range defaultValue={[20, 50]} disabled={disabled} />
        Disabled: <Switch size="small" checked={disabled} onChange={
{this.handleDisabledChange} />
      </>
    );
  }
}

export default () => <Demo />;
```
