

Relative to the parent

Width and height utilities are generated from the utility API in `_utilities.scss`. Includes support for `25%`, `50%`, `75%`, `100%`, and `auto` by default. Modify those values as you need to generate different utilities here.

```
{{< example >}}
```

Width 25%

Width 50%

Width 75%

Width 100%

Width auto

```
{{< /example >}}
```

```
{{< example >}}
```

Height 25%

Height 50%

Height 75%

Height 100%

Height auto

```
{{< /example >}}
```

You can also use `max-width: 100%;` and `max-height: 100%;` utilities as needed.

```
{{< example >}} {{< placeholder width="100%" height="100" class="mw-100" text="Max-width 100%" >}} {{< /example >}}
```

```
{{< example >}}
```

Max-height 100%

```
{{< /example >}}
```

Relative to the viewport

You can also use utilities to set the width and height relative to the viewport.

```
<div class="min-vw-100">Min-width 100vw</div>
<div class="min-vh-100">Min-height 100vh</div>
<div class="vw-100">Width 100vw</div>
<div class="vh-100">Height 100vh</div>
```

Sass

Utilities API

Sizing utilities are declared in our utilities API in `scss/_utilities.scss`. [Learn how to use the utilities API.]({{< docsref "/utilities/api#using-the-api" >}})

```
{{< scss-docs name="utils-sizing" file="scss/_utilities.scss" >}}
```
