

## zh-CN

密码框。

## en-US

Input type of password.

```
import { Input, Space } from 'antd';
import { EyeInvisibleOutlined, EyeTwoTone } from '@ant-design/icons';

export default () => (
  <Space direction="vertical">
    <Input.Password placeholder="input password" />
    <Input.Password
      placeholder="input password"
      iconRender={visible => (visible ? <EyeTwoTone /> : <EyeInvisibleOutlined />)}
    />
  </Space>
);
```
