

Invalid `getStaticProps` Return Value

Why This Error Occurred In one of the page's `getStaticProps` the return value had the incorrect shape.

Possible Ways to Fix It Make sure to return the following shape from `getStaticProps`:

```
export async function getStaticProps(ctx: {  
  params?: ParsedUrlQuery;  
  preview?: boolean;  
  previewData?: PreviewData;  
}) {  
  return {  
    props: { [key: string]: any }  
  }  
}
```
