

Overview

Telemetry from the PowerToys provider can be captured using the PowerToys.wprp file and WPR.

Starting trace capture

To capture a trace for the PowerToys provider, run the following:

```
wpr.exe -start "PowerToys.wprp"
```

Stopping trace capture

To capture a trace for the PowerToys provider, run the following:

```
wpr.exe -Stop "Trace.etl"
```

Viewing Events

Open the trace.etl file in WPA.
