

zh-CN

展示动态切换模式。

en-US

Show the dynamic switching mode (between `inline` and `vertical`).

```
import { Menu, Switch, Divider } from 'antd';
import {
  MailOutlined,
  CalendarOutlined,
  AppstoreOutlined,
  SettingOutlined,
  LinkOutlined,
} from '@ant-design/icons';

const { SubMenu } = Menu;

const Demo = () => {
  const [mode, setMode] = React.useState('inline');
  const [theme, setTheme] = React.useState('light');

  const changeMode = value => {
    setMode(value ? 'vertical' : 'inline');
  };

  const changeTheme = value => {
    setTheme(value ? 'dark' : 'light');
  };

  return (
    <>
      <Switch onChange={changeMode} /> Change Mode
      <Divider type="vertical" />
      <Switch onChange={changeTheme} /> Change Style
      <br />
      <br />
      <Menu
        style={{ width: 256 }}
        defaultSelectedKeys={['1']}
        defaultOpenKeys={['sub1']}
        mode={mode}
        theme={theme}
      >
        <Menu.Item key="1" icon={<MailOutlined />>
          Navigation One
        </Menu.Item>
        <Menu.Item key="2" icon={<CalendarOutlined />>
          Navigation Two
        </Menu.Item>
      </>
    </>
  );
};
```

```
<SubMenu key="sub1" icon={<AppstoreOutlined />} title="Navigation Two">
  <Menu.Item key="3">Option 3</Menu.Item>
  <Menu.Item key="4">Option 4</Menu.Item>
  <SubMenu key="sub1-2" title="Submenu">
    <Menu.Item key="5">Option 5</Menu.Item>
    <Menu.Item key="6">Option 6</Menu.Item>
  </SubMenu>
</SubMenu>
<SubMenu key="sub2" icon={<SettingOutlined />} title="Navigation Three">
  <Menu.Item key="7">Option 7</Menu.Item>
  <Menu.Item key="8">Option 8</Menu.Item>
  <Menu.Item key="9">Option 9</Menu.Item>
  <Menu.Item key="10">Option 10</Menu.Item>
</SubMenu>
<Menu.Item key="link" icon={<LinkOutlined />}>
  <a href="https://ant.design" target="_blank" rel="noopener noreferrer">
    Ant Design
  </a>
</Menu.Item>
</Menu>
</>
);
};

export default () => <Demo />;
```
