

NAS Parallel Benchmark Suite - Embarrassingly Parallel (EP) Benchmark

The container image described here runs the EP benchmark from the NAS parallel benchmark suite. This image is used as a workload in node performance testing.

How to release:

```
# Build
$ cd $K8S_ROOT/test/images
$ make all WHAT=node-perf/npb-ep

# Push
$ cd $K8S_ROOT/test/images
$ make all-push WHAT=node-perf/npb-ep
```
