Events (on video and in person)

All sessions at Ansible events are recorded and include many Network-related topics (use Filter by Category to view only Network topics). You can also join us for future events in your area. See:

- [Recorded AnsibleFests](#)
- [Recorded AnsibleAutomates](#)
- [Upcoming Ansible Events](#) page.

GitHub repos

Ansible hosts module code, examples, demonstrations, and other content on GitHub. Anyone with a GitHub account is able to create Pull Requests (PRs) or issues on these repos:

- [Network-Automation](#) is an open community for all things network automation. Have an idea, some playbooks, or roles to share? Email ansible-network@redhat.com and we will add you as a contributor to the repository.
- [Ansible collections](#) is the main repository for Ansible-maintained and community collections, including collections for network devices.

Chat channels

Got questions? Chat with us on:

- the `#ansible-network` channel (using Matrix at ansible.im or using IRC at irc.libera.chat)
- [Ansible Network Slack](#) - Network & Security Automation Slack community. Check out the `#dev` channel for discussions on module and plugin development.
