

Home > puppeteer > BrowserContext > clearPermissionOverrides

BrowserContext.clearPermissionOverrides() method

Clears all permission overrides for the browser context.

Signature:

```
clearPermissionOverrides(): Promise<void>;
```

Returns:

Promise<void>

Example

```
const context = browser.defaultBrowserContext();
context.overridePermissions('https://example.com', ['clipboard-read']);
// do stuff ..
context.clearPermissionOverrides();
```
