

Member-only videos

To download member only videos (such as [this one](#) and [this one](#)), it is required to preload cookies from your browser, using the `-c` option:

```
$ you-get -i -c ~/.mozilla/firefox/gggfz9xl.default/cookies.sqlite \
http://www.bilibili.com/video/av2987444
```

Note: at this point, only `cookies.txt` and Mozilla-style `cookies.sqlite` are supported. Loading Chrome cookies would be possible in the future but [not a priority](#).

I got an empty (0.0 MiB) video. Why?

[As reported](#), some videos on Bilibili are known to have [region restrictions](#). Use a proxy.

With an European IP:

```
λ you-get-develop [develop] ./you-get -i http://www.bilibili.com/video/av1652964/

Type:       Unknown type ()

```

With a proxy of American IP:

会员的世界

下载会员的世界 (例如 [这个](#) 或者 [这个](#)), 需要加载浏览器的cookie, 使用 `-c` :

```
$ you-get -i -c ~/.mozilla/firefox/gggfz9xl.default/cookies.sqlite \
http://www.bilibili.com/video/av2987444
```

注意: 目前只支持 `cookies.txt` 或者 Mozilla样式的 `cookies.sqlite` . 以后有可能可以加载Chrome的 cookies, 但[优先级不高](#).

视频大小为空 (0.0 MiB). 为什么?

[据报告](#), 有些 Bilibili 视(xin)频(fan)有 [区域限制](#). 挂代理吧.
