

## zh-CN

可用 `closeIcon` 自定义关闭按钮。

## en-US

The close icon can be customized using `closeIcon` .

```
import { Tag } from 'antd';
import { CloseCircleOutlined } from '@ant-design/icons';

export default () => (
  <>
    <Tag closable closeIcon="关 闭">
      Tag1
    </Tag>
    <Tag closable closeIcon={<CloseCircleOutlined />}>
      Tag2
    </Tag>
  </>
);
```
