

## zh-CN

配合 List 组件展现评论列表。

## en-US

Displaying a series of comments using the `antd` List Component.

```
import { Comment, Tooltip, List } from 'antd';
import moment from 'moment';

const data = [
  {
    actions: [<span key="comment-list-reply-to-0">Reply to</span>],
    author: 'Han Solo',
    avatar: 'https://joeschmoe.io/api/v1/random',
    content: (
      <p>
        We supply a series of design principles, practical patterns and high quality
        design
        resources (Sketch and Axure), to help people create their product prototypes
        beautifully and
        efficiently.
      </p>
    ),
    datetime: (
      <Tooltip title={moment().subtract(1, 'days').format('YYYY-MM-DD HH:mm:ss')}>
        <span>{moment().subtract(1, 'days').fromNow()}</span>
      </Tooltip>
    ),
  },
  {
    actions: [<span key="comment-list-reply-to-0">Reply to</span>],
    author: 'Han Solo',
    avatar: 'https://joeschmoe.io/api/v1/random',
    content: (
