

## One Light Syntax theme

A screenshot of a code editor displaying a snippet of CSS and SASS code. The code is color-coded according to the One Light Syntax theme. Line 1: @import "vars"; (purple). Line 2: @import "mixins"; (purple). Line 3: @import "components"; (purple). Line 4: (empty). Line 5: // My Project (grey). Line 6: (empty). Line 7: .my-project { (brown). Line 8: color: @text-color; (red). Line 9: background: @base-background-color; (red). Line 10: (empty). Line 11: &-header { (purple). Line 12: font-size: 1.1em; (brown). Line 13: border-bottom: 1px solid; (brown). Line 14: } (purple). Line 15: (empty).

```
1  @import "vars";
2  @import "mixins";
3  @import "components";
4
5  // My Project
6
7  .my-project {
8    color: @text-color;
9    background: @base-background-color;
10
11   &-header {
12     font-size: 1.1em;
13     border-bottom: 1px solid;
14   }
15
```
