

Home > puppeteer > Mouse > click

Mouse.click() method

Shortcut for `mouse.move`, `mouse.down` and `mouse.up`.

Signature:

```
click(x: number, y: number, options?: MouseOptions & {  
    delay?: number;  
}): Promise<void>;
```

Parameters

Parameter	Type	Description
x	number	Horizontal position of the mouse.
y	number	Vertical position of the mouse.
options	MouseOptions & { delay?: number; }	Optional MouseOptions.

Returns:

Promise<void>
