Delete a Grafana library panel

Delete a library panel when you no longer need it.

Before you begin

- Verify that the panel does not appear on a dashboard.

To delete a library panel:

1. Hover over **Dashboard** on the left menu, and select Library panels from the drop-down options.
2. Select a library panel that is being used in different dashboards.
You will see a list of all the dashboards.
3. Select the panel you want to delete.
4. Click the delete icon next to the library panel name.
